LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Cultural Head
Gandhinagar University

- Led university cultural events, coordinated student teams, delegated responsibilities and worked with faculty and external vendors on budgets and schedules.

Arena Coordinator
University Tech Fest

- Coordinated arena activities, participant scheduling and on-ground operations with the organizing team.

PROFESSIONAL SUMMARY

Information Technology undergraduate and Python Developer Intern with hands-on experience building business web applications using Python, Django and React. Independently developed the frontend of a multi-company pharmaceutical ERP project and currently contributing to Django backend development for a university website. Familiar with REST APIs, role-based application workflows, database-driven features and collaborative software development. Seeking Python Backend / Full Stack Developer opportunities.

EXPERIENCE

Python Developer Intern
Jun 2026 – Present
Vibe Tech Labs, Ahmedabad, Gujarat

- Developing business web applications using Python and Django, with hands-on work across backend functionality and frontend integration.
- Independently built the complete React frontend for CMHP, a pharmaceutical ERP project; the project is currently in development and has not yet been handed over.
- Working on the Django backend for an ongoing university website project, contributing to full-stack application development.
- Worked with authentication, role-based access control, CRUD workflows, database models and REST API integration.

SELECTED PROJECTS

CMHP – Pharmaceutical ERP System
React, Redux, JavaScript, HTML5, CSS3

- Independently developed the complete frontend for a pharmaceutical ERP supporting two companies and a shared Common Inventory.
- Built company-wise interfaces and role-based modules covering HRMS, orders, inventory and stock ledger, production (BMR), QC/QA approval and invoicing.

HR University – University Website
React, JavaScript, Django, HTML5, CSS3

- Developing a university website covering admissions, events, placements and department sections, with Django backend development in progress.
- Designed interactive frontend experiences including an animated introduction, live counters, hero video, hover effects and enquiry/admission popup.

Interior Design Studio – Website
Python, Django, HTML5, CSS3

- Built a website with product and project pages, login/signup, OTP-based password reset and an admin-managed gallery.
